I was born in 1980 in a small port town (Bandar Anzali). I have a degree in civil engineering education. All my assets of the art Education is indebted to Mr. Moslemian (my professor). Biological roles emerged from the experience and understanding of situations in which relief can be achieved. Roles are a manifestation of inner feeling. There is no narrative just can only imagine the effect that his position and perhaps this is the same Introverts and achieve to depth without considering the taste.

Alireza 生於 1980 年恩澤利港，擁有土木工程學位。Alireza 的藝術教育歸功於 Moslemian 先生。Alireza 認為生物的角色，來自於對慈善的力量經驗與對情況的了解。角色是內在情感的展現。沒有敘述，只有想像他所在位置的影響，或許這是在沒有考量品味時所達到的深度下，所相同的共鳴。
